

STRATEGIC HERITAGE PLAN (SHP)

350 km

= **maximum distance**

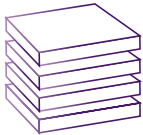

to bring most **sustainable construction wood** to the construction site of the new permanent building

18,500 m³

of concrete

will be used for the construction of the new building
= **volume equivalent to 7 olympic swimming pools**

7,200 m²

of façade

will be installed = **surface equivalent to the playing field of a football stadium**

40%

reduction

of **water consumption** targeted

75%

of construction waste

expected to be **reused or recycled**
